

Blaby District Council support Braunstone's land training project

The club is delighted to announce the successful application for a bid for £500 from Blaby District Council towards funding for new land training equipment. The cheque was presented to Janet Eden, the club's Secretary who attended the presentation event on Friday 17 December.

The grant goes towards providing mats, medicine balls, heart rate monitor and a high tech Pulsefit Personal Assistant Coach Poolside and Gym fitness training aid. What a bonus for this club! Many thanks to Blaby District Council for supporting the project and helping the club to establish a more professional approach to dry land training under the guidance of Karl Strange and coaches.

You can read The Full Press Release [here](#).

The whole project costs over £1000, so if **you** know of any other means to fund the remainder, please contact Janet Eden on secretary@braunstoneswimmingclub.org.uk or speak to a committee member on the poolside.
